Mission Interchange Bridge

Hello Deb:

We have reviewed the Joint Application for the Yellowstone River – Mission Interchange bridge rehabilitation project located approximately 6 miles northeast of Livingston. The proposed work is approval in accordance with the Montana Stream Protection Act.

The authorization is valid for five years from the date of issuance.

X The proposed work should not result in a significant increase in turbidity; therefore, application to DEQ for 318 authorization is not required.

If you have any questions on these comments and wish to discuss them, please contact me at 444-3175 and reference SPA # MDT-R3-85-2009.

*A 318 Authorization IS required
from DEQ. Deb 10/28/09*

Sincerely,

doughmcdonald

Doug McDonald
